The following is an examiner's statement of reasons for allowance:

The closest prior art of record Brundage '386 teaches a solid core member within a partial through hole wherein the core member has external threads to locate an internally threaded weight. While complete through holes without threads containing weights are known in the art (see Johnson'006) it is the examiner's judgement that such art taken with Brundage would not have suggested the particular combination of elements of claim 1 under the requirements of 35 U.S.C. 103(a).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Mark S. Graham at telephone number 703-308-1355.
